# Project/Project Server 2007

## **MCTS: Managing Projects with Microsoft Office Project 2007**

### **Microsoft Certified Technology Specialist (1 MCTS exam)**

The MCTS: Microsoft Office Project 2007 credential for managing projects validates the skills of project managers who use Office Project 2007. Candidates for this credential may work on projects as a team member, project lead, project manager, scheduler, or another role that requires the ability to formulate well thought-out project plans and to manage projects effectively. MCTS candidates may be responsible for the scheduling, estimating, coordinating, controlling, budgeting, and staffing of projects. Candidates may also provide support to other Microsoft Office Project users. Candidates should be familiar with key project management concepts and terminology. More than a product certification, the new Office Project 2007 certification family is designed specifically to help project managers apply the leading project management best practices and methodologies as established by the Project Management Institute (PMI), resulting in better project outcomes, greater efficiency, and optimal resource management.

## **MCTS: Enterprise Project Management with MS Office Project Server 2007**

### **Microsoft Certified Technology Specialist (1 MCTS exam)**

The MCTS: Microsoft Office Project Server 2007 certification for managing projects provides industry recognition to project managers and other professionals who use Microsoft Office Project Professional 2007 and Office Project Server 2007 to manage and support projects in an enterprise environment. Candidates for this credential may use Office Project 2007 or Office Project Server 2007 to manage project and non-project efforts, risks, issues, documents, task progress, and timesheets. Candidates should be familiar with the key project management concepts and terminology found in the Project Management Institute's "A Guide to the Project Management Book of Knowledge" (PMBOK Guide).

# MCITP: Enterprise Project Management with MS Office Project Server 2007

## Microsoft Certified IT Professional (2 MCTS exams + 1 MCITP exam)

The Microsoft Certified IT Professional credential for Microsoft Office Project Server 2007 provides industry recognition to project managers and other professionals who use Microsoft Office Project Professional 2007 and Office Project Server 2007 to manage and support projects in an enterprise project management (EPM) environment. Candidates for this certification manage projects in an EPM environment and are able to manage project and non-project efforts, risks, issues, documents, task progress, and timesheets. Candidates should have in-depth knowledge of key project management concepts and terminology found in the Project Management Institute's "A Guide to the Project Management Book of Knowledge" (PMBOK Guide).
